

1. WARRANTY COVERAGE

Product Warranty	15 years from date of installation, or 18 months from date of shipment, whichever occurs first, if installation date cannot be verified
Function Warranty	30 years from date of installation — structural performance per the applicable structural calculation (ASCE 7-22 / IBC 2021 / AISC 360-22)
Coverage Scope	Foundation shell, base plate, and factory-installed stud bolt kit

2. WHAT IS COVERED

The Product Warranty covers defects in material and workmanship in the foundation shell, ZM115 (Zinc-Aluminum-Magnesium) coating, and factory-installed hardware, under normal use and installation in accordance with Nordinfra's published installation manuals.

The Function Warranty covers the structural performance of the foundation — resistance to overturning, sliding, and material failure under the design loads documented in the project-specific structural calculation — provided the foundation is installed, backfilled, and maintained in accordance with Nordinfra's specifications.

3. WHAT IS NOT COVERED

- Damage caused by installation not performed in accordance with published installation manuals
- Damage caused by backfill material, compaction, or excavation not meeting the specifications in this manual
- Damage resulting from vehicle impact, vandalism, or damage resulting from vehicle impact, vandalism, or extreme weather/seismic events exceeding the design parameters specified in the applicable structural calculation
- Cosmetic surface rust at cut/kerf edges, which is expected, cosmetic, and does not affect structural performance see documents for Coating & Corrosion
- Equipment mounted to the foundation (chargers, pedestals, bollards, signage) — covered separately by the respective equipment manufacturer's warranty
- Modifications, alterations, or repairs not authorized in writing by Nordinfra Systems
- Damage resulting from failure to meet the backfill compaction requirement ($\geq 95\%$ Proctor per ASTM D698)

4. CLAIM PROCESS

To submit a warranty claim, contact Nordinfra Systems AB with the following information: (1) proof of purchase or installation date, (2) foundation model/SKU and serial or batch number if available, (3) description of the issue with supporting photographs, (4) installation site address.

Nordinfra will evaluate the claim and, at its discretion, repair, replace, or issue a credit for the affected foundation. Nordinfra reserves the right to inspect the installation site prior to approving a claim.

5. LIMITATION OF LIABILITY

This warranty is in lieu of all other warranties, express or implied, including but not limited to the implied warranties of merchantability and fitness for a particular purpose. Nordinfra's liability under this warranty is limited to repair, replacement, or credit of the affected product and does not extend to incidental, consequential, or indirect damages, including but not limited to installation labor, downtime, or loss of use.

This warranty does not constitute a substitute for project-specific engineering review. A site-specific geotechnical report and, where required, a PE-stamped structural calculation remain the responsibility of the installing contractor or project engineer of record.
